

Waterboro Cemetery Committee

August 19, 2013

Started 7pm

Present: Russ Jensen, Angela McCoy, Mike Cupka, Donna Mayo, Kelly Mayo

1: Russ Sprayed weed killer 2 weeks ago at the Hamilton/Carll/Ricker Cemetery in hopes of taming the weeds and poison ivy in the cemetery. He will be giving us updates as he checks in on the cemetery.

2: Russ is happy to report that the monument looks great. The patches of grass have grown in and we have informed him that if grass seed is needed to go ahead and buy it.

3: Russ has cleared a nice new path in the Nicholas Carpenter burial site, so that entrance to it is easier.

4: We will be emailing Patty to see if the chain for the Sedgley cemetery is up and ready to go.

5: Donna will be emailing Jim about the Veterans to see if we can get anymore information on the Veterans that we are missing.

6: Mrs. Black lives by the Middle and Elementary School, and when she was cleaning her yard she found a pile of rocks. Shes not sure if someone is buried there or if it was a family pet. Theres a wire fence, that is now grown into the trees around it. She informed us that the previous owners that lived there for many years didnt even know about it. She was hoping we could give her more information if it was someone who buried there or just a family pet.

7: Adopt-A-Cemetery. We need new people to adopt cemeteries. There are just to many for us members to take care of.

8: Donna and Kelly will be making a sign to notify when we spray weed killer for allergy purposes.

9: Mike Cupka gave us some updates on the cemeteries he takes care of. He weeded wacked Hill Fisk and Smith Bean. He would like to see a sign placed for the Smith Bean cemetery. Also on the list of GPS coordinates to find the Cemeteries he found a couple of errors. The Hill Fisk cemetery should say heading North instead of West. The Smith Bean says 1.4 mile in, when in reality its only 200ft.

10: Donna will be meeting with the Selectmen on September 3rd.

Meeting adjourned at 8pm

Next meeting is set for September 9th
