**APPOINTMENTS**

7:00 – David Benton addressed the board as Water District Trustee stating that they have a survey going out to the District customers. This is to determine if they qualify for a low interest loan for a new well and/or new pump station to expand the system. Asked that customers please complete this as it is very important that it be returned. This survey is being done by a private survey company and all information will be strictly confidential. Explained that in doing the line extension they have had to flush the new line a couple of times causing the water to be cloudy. Stated that this will go away in a couple of days.
