

**Road Review Committee
Meeting**

**April 13, 2011
6:00 PM**

Members present: Chairman James Gendron, Jon Tufts, Fred Fay, David Woodsome, Roger Macomber and Committee Secretary Nancy Roberge

Workshop called to order at 6:00 PM.

Motion by Roger and 2nd by Jim to approve the March 30, 2011 workshop minutes, approved 5-0.

The question was asked why the Town doesn't hire an engineer? With all the money that has been spent on engineering fees over the years, hiring even just a part time engineer would pay for itself. Every road project the Committee proposes needs to be engineered to just even obtain an estimated price to do the project. Without an engineer, there is no way that the Committee can provide the Selectman with an accurate price to complete a road project to their satisfaction.

A letter has been received from a citizen on 20 Alder Drive in East Waterboro concerning the plowing of the road at the last snow storm and part of the pavement was torn up.

Fred indicated that there was plow damage on Belanger drive as well. Fred to take pictures of the plow damage for the Committees records.

Motion by Jim 2nd by Roger to adjourn at 7:00 PM.

The next meeting is May 11th at 6:00 PM.

Respectfully submitted;
Nancy Roberge,
Committee Secretary
