Laughlin. Stillborn.
- Feb. 5, Infant daughter of Mr. and Mrs. Arthur C.
Warren. Protracted Labor.

Respectfully submitted,
IVORY H. SMITH,
Town Clerk.

Report of the Superintendent of Schools and Superintending School Committee of the Town of Waterboro Maine

For the Year Ending Feb. 29, 1912.

JAMES A. ROBERTS, Chairman
GEORGE N. BROCK,
W. LESLIE GOODWIN,
Superintending School Committee.

ERNEST G. KNIGHTS,
Superintendent of Schools.

REPORT

To the Superintending School Committee and to the Citizens of the town of Waterboro:

Engrossed, as you necessarily are, with the everyday affairs of your lives, I must suppose, nevertheless, that you yet cherish a lively interest in the condition of your public schools. If it were possible to suppose it otherwise, there would be still greater reason why I should endeavor to discharge the duty assigned me by Statute in making to you another annual report upon the educational affairs of the town of Waterboro.

I hope not to be charged with unwarranted enthusiasm when I express the conviction that the condition of your schools, their general progress during the past year, and their consequent advancement toward the goal for which we have striven, Excellence, is the best for several years. Under those beneficent influences that general harmony alone can produce, the several district schools have produced wonderful results, and the work in the high school has been of a quality and quantity that has far exceeded my greatest expectations.

An examination of the roll of honor again discloses more than the average number entitled to the distinction and furnishing convincing evidence again of the fact that harmony in the school produces added interest in its work. At the commencement of the spring term, I promised to the ten pupils making the best record for school attendance during the year a prize to each of them, and if I had been compelled to deliver the goods at the close of the spring term, I fear it

might have put me in somewhat straightened circumstances, as the uppermost idea in the mind of every pupil appeared to be perfect school attendance. Many of the pupils had the idea that tardiness counted against them and in some schools there are records of many pupils without a black mark against their names during the term.

I am more than gratified at the results obtained for what I believe to be the first instance of a Superintendent of schools of this town offering prizes for school attendance, and if the winners derive one half the pleasure from them that I have in giving them, I shall be doubly pleased.

The health of the pupils, in general, has been very good during the year. The whooping cough troubled a few of the schools, particularly that in District 1, during the spring term, but aside from this the pupils have been blessed with their usual good health.

We have maintained 30 weeks of common school during the year, the same as during the years of 1909 and 1910, and an examination of our disbursements on the following pages will disclose the fact that we can maintain thirty weeks of common school, pay teachers a respectable wage and, at the same time, at no perceptible increase in taxation. During the year, we have paid no teacher a lesser wage than \$7.00 per week, and in the larger districts the wage has varied from \$7.50 to \$10.75 per week. When it is remembered that but a few years ago our teachers, with hardly an exception, were working for \$6.50 per week, and that 27 weeks, or less, of common school was the rule, it will be seen that the contrast is always to our advantage.

TEXT BOOKS.

No change has been made in text books during the

year. We have been compelled to purchase many new books, a part to replace worn out books; and several new books were required to replace those lost in the South Waterboro fire. As will be noticed, several parents have purchased new books for their children and, personally, I hope that the list of book purchasers may increase from year to year. The owner of a book, as a rule, will better care for it than the borrower and, try as hard as we may, we cannot overcome what seems to be the natural tendency of pupils to roughly handle the town's books. As will be noticed, for the first time in several years, we have an unexpended balance in this department.

SUPPLIES AND REPAIRS.

We have received the good words and good wishes of many of our citizens for the improvements we have made on the interior of our school rooms during the past year. During the two previous years, the greater part of the funds at our disposal was expended on the exterior of our school buildings with the idea in mind that we ought first to put our school houses in such a condition that they would create a good impression on the minds of our visitors, and secondly, that no improvement of a permanent nature could be made on the interior with a leaky roof and the like. The walls and ceilings of our school rooms for more than twenty years had received no attention, and in accordance with the suggestions of Mr. Brock, we caused every school room in town that would be in use the past year, with one exception, to be papered and painted and the ceiling whitened. Instead of the dark, dirty walls that have met the gaze of pupils for more than two decades, we now have bright, clean and attractive rooms, pleasing alike to pupils, teachers and parents. The paper was

furnished the town at wholesale prices, \$3.20 per hundred rolls, and the total cost was surprising because of the small amount of money required for a job of such magnitude. The usual number of minor repairs have been made, viz: new doors in District 9, new floor in District 12, etc., etc., and we are pleased at being able to show a good balance in this department.

REPORT BY DISTRICTS.

District 1. The Spring term of school in this District was taught by Ethel M. Warren, a teacher of much experience, with the usual good results. Prior to the commencement of the Fall term, she tendered her resignation and Miss Florence M. Cluff was elected to fill the vacancy. Miss Cluff, as we have stated previously, is one of our best teachers. She has taught several terms of school in this town with unvarying excellent results and her work appears to improve from year to year. During the year just closed, she submitted to the State examination for teachers and, obtaining nearly perfect rank in all the different branches, has been awarded a certificate for five years which may be renewed for another period of five years at the expiration thereof if she continues teaching as her vocation.

District 4. The scholars in this district during the spring and winter terms were transported to District 5, agreeable to the vote of the S. S. Committee. Edna M. Kimball taught the fall term and pupils and parents were uniformly agreed that the term of school was highly successful. The removal of the Fay family from town reduces the number of pupils in this District to less than five, and it must appear that in order for future terms of school in this District to be financially profitable there must be a large addition of pupils

to the present small number.

District 5. The Spring term was taught by Myra B. Durgin, who taught successfully the three terms in this District in 1910. During the vacation, she tendered her resignation and Miss Lizzie M. Sawyer, of Limerick, was employed to teach the Fall term. The high class of work obtained from her efforts during the Fall term, amply justified her re-election for the Winter term and wonderful is the only adjective that can be used to express properly the results obtained. Miss Sawyer is a teacher of great experience and she has the happy faculty of being able to keep her pupils interested in their work and desirous of succeeding. I regret that we have not been able to secure her services previous to this year, and believe that she will have no difficulty in securing a similar position in this town in the future if she so desires.

District 6. No school has been maintained in this District during the year. At the present time, there is not a pupil in the District, but we believe that the schoolhouse should be kept in repair for there may be an occasion when it will be profitable to re-open the building for school purposes.

District 7. The Spring term of school in this District was under the charge of Miss Delia E. Files, of Gorham. The qualities she displayed as a teacher soon convinced us that we could use her services at a greater advantage in District 10, and, consequently, she was elected to fill that position during the summer vacation. The Fall and Winter terms of school in this District have been under the charge of Annie L. Meserve, of Limerick a graduate of the Limerick academy. Though this was her first experience at teaching, everything appeared to go smoothly, the government was good, her method of instruction was good and the

improvement was excellent.

District 8. Ethel E. Knight, a graduate of our High School, has been in charge of this school during the year. Her work exhibited her determination to succeed, and to spare no pains to have a good school. The removal of the Hobson family from the District reduces the number of pupils in the District to less than five, and it appears that the transportation of the pupils to District 9 the coming year will be profitable to pupils and to the town alike.

District 9. Leora E. Abbott, of Hollis, taught the three terms of school in this District and has simply repeated the good work she performed in District 12 last year. At the commencement of her school, she established good order, and succeeded in maintaining it during its continuance. The school was systematically conducted, and the best endeavors of the teacher were used in advancing the interests of her pupils.

District 10. The Spring term was taught by Leon H. Jeffers, of Portland, a graduate of Kents Hill. There is no disputing the fact that Mr. Jeffers was a scholar of the first quality, but his conduct outside of the school room was not entirely in accord with the ideas of some of the parents in the District. We have, in every instance, warned teachers when about to commence their labors in this school, that their conduct inside and outside of school must be of the best, else they are sure to be criticised by a certain class who are always ready to enlarge on the slightest fault. Notwithstanding the criticism referred to, which may have been partly justified, Mr. Jeffers was at all times master of the school and the order was the best for a long time. Parents, since his departure, have assured me that their children made rapid advancement, which is, of course, satisfactory advancement.

Miss Delia E. Files, of Gorham, a graduate of the Normal school, and a possessor of a State certificate, taught the Fall and Winter terms. She has continued the good order maintained by Mr. Jeffers, and the advancement has been equally good. Intensely desiring that her pupils should advance, Miss Files was careful to assign lessons to the different classes, according to their ability to learn, and then insisted that the lessons should be learned; sometimes even keeping the idle and dilatory after the school had closed to commit the lesson assigned. Having nothing else to complain of, this brought us a few complaints, but with no satisfaction to the complainants, we trust.

District 12. Lizzie B. Carpenter, one of our best young teachers has been in charge of the school in this District during the year and has again demonstrated her great value to the school department of this town. She is one of the favored few who can impart instruction to others in a clever and forcible manner, and every opportunity was improved to impress upon their minds the principles of morality and gentlemanly and ladylike conduct. She is bound to be the ruler of her school, and the question of discipline in the school that she conducts is one that never gives us any serious concern.

District 16. Florence M. Cluff taught the Spring term with the usual satisfactory results to pupils and parents. Miss Edith V. Roberts, a graduate of our High school in June last, was employed to teach the Fall term, and in consideration of the good work done by her was employed for the winter term. This is one of our small schools and is composed entirely of small scholars, and it appears that soon the question of combining this school with others must be considered.

WATERBORO HIGH SCHOOL.

The Waterboro High school continues to be an Approved High school, the last certificate of approval signed by the State Superintendent of Schools being dated July 26, 1911, and continuing until July 1, 1912. The quality and quantity of work that is being done in this school, alone, merits its continuance. The policy of the State at this time, as it has been for several years, tends directly toward the advanced school. The State, in return, assists all free high schools, maintaining approved courses, to the extent of two-thirds of its annual cost, requiring those towns to pay but a comparatively small sum additional to maintain an advanced school of their own. Should a town refuse to vote for an appropriation to support a free high school, then, under the Statute, the town itself is compelled to pay the tuition of those attending advanced schools in other towns to the extent of thirty dollars each, yearly. It will be seen at a glance that the continuance of our high school, from the last statement alone, will be good judgment from an economical standpoint, and the help and encouragement given those of our children who could not afford to attend an advanced school in another town furnishes convincing proof of its great value to us all. I do not anticipate the least opposition to its continuance, but I feel that recent changes in the laws, and their effect, should be called to your attention.

The Spring term was taught by Mr. Horne, with the usual success, and at its close, four of its students were graduated.

During the summer vacation, Carl E. Kelley, of Addison, Maine, was employed to teach the school during the Fall term at a wage of \$15 per week. The standard he set and the excellent work achieved com-

pelled his re-election for the winter term and, without the least solicitation on his part, his salary was increased to \$16 per week. Mr. Kelley is a graduate of the Ricker Classical Institute, at Houlton, completing the four years' work in three years and winning the \$100 prize for scholarship. He has also attended Colby college one year. Our honored townsman, President Arthur J. Roberts, of Colby, in a recent conversation with your Superintendent, praised Mr. Kelley highly, and predicted that he would be highly successful in his work here. President Roberts' prediction has been more than fulfilled, for Mr. Kelley "made good" from the beginning.

The average attendance in Districts 4, 8 and 16 has fallen below 8, as required by Statute, and I recommend that the same authority be given the S. S. Committee as last year to maintain a term, or terms, of school in these Districts during the year, if it, in their judgment appears profitable to do so.

IN CONCLUSION.

Believing that a school poorly governed is next to none, we have insisted that teachers should exercise a prompt and energetic discipline. The enforcement of this rule has brought us a few complaints, as we expected it would, but we have yet to rebuke a teacher on this account, for the least investigation has in every instance convinced us that the punishment administered was richly deserved. Only those with the minimum of intelligence will object to the rule of the school.

Our eyes have been pained by the spectacle of boys that have reached the age of fifteen years abandoning the schools that have been provided with so much care and expense to educate them. Apparently, their parents lack the power or will to enforce their at-

tendance at school. After reaching this age, they are no longer amenable to the truancy law, and, realizing this fact, they desert the best friend they have; or will ever have. We have performed our duty in compelling their attendance until this age was reached, and beyond that, the responsibility is theirs, absolutely.

The usual harmony between members of the Committee and Superintendent has continued during the year just closing. There have been frequent consultations on all matters of importance, and credit for the accomplishments of 1911 in the school department of Waterboro belongs alike to all.

For the confidence which three successive elections to the Superintendency of Schools of this town implies, for the uniform courtesy that has been mine during my connection with the school board of this town, and for the many kind words that have been spoken because of my efforts to improve the schools of this town, I am truly thankful, and in return I can but pledge my efforts and what little influence I may ever have to the encouragement and advancement of all ideas having to do with the improvement of that institution which is our protection against the evils of ignorance, and the glory of the land—the free school.

Milton Johnson.

WHAT THE ROLL OF HONOR IS.

Pupils having a perfect record for at least one full term during the year are entitled to have their names placed on the Roll of Honor. The records indicate that during the year just closed about twenty-five pupils, other than those mentioned above, were endeavoring to obtain the distinction but through illness were prevented from reaching the coveted goal. About twenty of those referred to have completed at least one full term with but one black mark against their names. The roll of honor for 1909 contained 47 names, for 1910 68 names and for 1911 68 names.

The prize awarded to each of the winners consists of one years' subscription to a nice little school paper and ten classics by standard authors. The same should be received by the pupils not later than March 10th, 1912.

ERNEST G. KNIGHTS,

Superintendent of Schools.
